- (5) Type date contribution was RECEIVED (Month/Day/Year).
- (6) Sequence Number Each detail line shall have a sequence number assigned to it. Sequence numbers are to be assigned within each reporting period and for each type of detail line. Thus the report type, detail line type, and sequence number will combine to uniquely identify a specific contribution, expenditure, distribution or fund transfer. This method of unique identification is required for responding to requests from the Division and for reporting amendments.

For example, a Q1 report having 75 contributions would use sequence numbers 1 through 75. The next report (Q2), comprised of 40 contributions would use sequence numbers 1 through 40. Contributions on amended Q1 reports would begin with sequence number 76 and on amended Q2 reports would begin with sequence number 41. See the *Amendment Type* instructions below.

The sequence number for contributions with amendment type "ADD" will start at one plus the number of contributions in the original report. To correct a previously submitted contribution use the following drop/add procedure. Enter "DEL" in amendment type on a line with the sequence number of the contribution to be corrected. In combination with the report number being amended, this sequence number will identify the contribution to be dropped from your active records. On the next line enter "ADD" in amendment type and ALL of the required data with the necessary corrections thus replacing the dropped data. Assign the sequence number as described above.

(12) Type amount of contribution received. <u>Committees of continuous existence ONLY</u>: Any contribution which represents the payment of dues by a member in a fixed amount pursuant to the schedule on file with the Division of Elections need only list the aggregate amount of such contribution, together with the number of members paying such dues and the amount of membership dues.
