**CITY OF DANIA BEACH, FLORIDA
REQUEST FOR QUALIFICATIONS (“RFQ”) FOR
“PROFESSIONAL ENGINEERING SERVICES FOR
WIND PROTECTION AND BACKUP POWER TO CITY HALL”
RFQ NO. 22-002
ADDENDUM 1**

RESPONSES TO QUESTIONS RECEIVED

1. On page 10 of the “Bid Document” V. Submission Deadline and Response Opening states November 22, 2022. At 1:00 p.m.
The submission deadline for this RFQ is February 11, 2022 at 10am; responses will be opened immediately after closing on that same day.
2. Also on Exhibit “A” – Reference List: the form requests 5 similar contracts within the past 5 years – considering the industry has been adversely affected by a pandemic for the past 24 months, and numerous municipalities slowed the procurement process in 2020, and lastly the services requested for this project are not “typical” services advertised regularly by municipalities. A building hardening or wind protection for a municipal facility is not something that is advertised on a regular basis therefore would the City considering accepting projects of similar construction value and/or extending the number of years to perhaps 10?
Yes.
3. What is the construction cost of this project?
The estimated construction cost is \$2.4 Million.
4. Typically when Federal Funding is provided for a project then a DBE (Disadvantaged Business Enterprise) Goal is established and an MBE Certification is not acceptable. Please clarify, since this is a re-issue there is a lot of time and money spent on the preparation of responses.
As confirmed by the State, there are no DBE goals for this project.
5. Regarding Attachment “A” – Page 4 No. (8) Period of Agreement – document stated it ended on August 31, 2021 – please clarify.
This has been extended to June 2023.
